Forecast for Sunday 30 Oct 2022

Weather: Some drier weather but showers developing and moving across the area, some showers will be heavy with some thunder and showers may band together at times to give longer spells of more persistent rain. Showers mostly dying out in the evening.

Chance of cloud-free hill tops above 800m: 60%, low cloud associated with passing showers.

Low Cloud and visibility: Good visibility in general but any heavier showers will cause a temporary dip in visibility, a thunderstorm may cause visibility to be very poor for a time. Scattered cloud layers above 600m are likely at times especially around western hills and in showery conditions.
